About Us

Bath's skate park is located in Victoria Park, about a 10 minute walk from the train station. It is on a slight slope which means you can get some good speed for the newly built driveway with square rail. The park also has a large vert, a 6ft mini with tombstone, a 4ft spined mini, a small street course with spine, concrete manual block, a sloped square rail going up the slope and a launch box. The launch has a steep transition so it's not the best for getting air and the spine in the street course is tiny, maybe only 2-3ft. The sloped rail going up the slope is weird to get used to but is pretty nice once you ride it for a while. All the rest of the transitions are super nice and the concrete manual block is great for learning grinds and stuff. Well worth checking if you are there.
